

## Notice of Study Completion

### City of St. Thomas Pollution Prevention Control Plan

The City of St. Thomas has prepared a Pollution Prevention Control Plan (PPCP), which is part of ongoing efforts being undertaken to improve the performance of the City's sanitary and storm sewer infrastructure. The PPCP provides the City with a road map for implementation of infrastructure and operational improvements that will mitigate the impacts of wet weather sewer system overflows on the environment. This is in alignment with the City's commitment to environmental stewardship and the provision of sustainable municipal services.

The study has been undertaken in accordance with the requirements of the Municipal Class Environmental Assessment (EA) process for Master Plans (Municipal Engineer's Association Class EA document October 2000, as amended in 2007, 2011 & 2015). While the Master Plan addresses need and justification at a broad level, more detailed studies for each of the projects included in the Master Plan will be done later following the Municipal Class EA in accordance with the project's schedule.

The City of St. Thomas Pollution Prevention Control Plan Study documenting the process is available for review on the City website for a period of at least 30 calendar days, beginning February 22, 2022. The document may be accessed at: [https://www.stthomas.ca/p\\_p\\_c\\_p](https://www.stthomas.ca/p_p_c_p)

#### PUBLIC CONSULTATION

Interested persons may provide written comments and concerns directly to our project team:

**Nathan Bokma, P. Eng.**

Manager of Development and Compliance  
Environmental Services Dept.  
City of St. Thomas  
Tel: 519-631-1680 ext. 4151  
[nbokma@stthomas.ca](mailto:nbokma@stthomas.ca)  
545 Talbot St., PO Box 520  
St. Thomas, ON N5P 3V7

**John Tyrrell, M.Sc. (Eng.), P. Eng.**

Senior Project Manager, Municipal  
R.V. Anderson Associates Limited  
Tel: 519-681-9916 ext. 5038  
[jtyrrell@rvanderson.com](mailto:jtyrrell@rvanderson.com)  
557 Southdale Road East, Suite 200  
London, ON N6E 1A2

Please forward any comments to the Study Contact by March 25, 2022. Thereafter, the PPCP will be reviewed and revised taking into consideration the comments which are received from the public. The recommended PPCP will be presented to City Council for approval.
