

Kains Street Construction Mondamin Street to Alma Street Public Information Centre

The City of St. Thomas is finalizing the design of the Kain Street Construction project for construction in 2024. The work includes replacement of sanitary sewers, watermain, roadwork and sidewalks along Kain Street from Mondamin to Alma Street. The design also includes traffic calming measures, pedestrian crossings, bike lanes and a roundabout at St. Catharine Street. The Kains Street Construction project implements the City of St. Thomas “Complete Streets” philosophy by enhancing accessibility for all road users including vehicles, cyclists, and pedestrians of all ages and abilities. In conjunction with the work on Kains Street, the City plans to convert both Curtis Street and Scott Street to two way traffic.

We invite you to a drop-in style Public Information Centre where you can learn more about this project, view the plans and discuss the proposed improvements with City staff.

Public Information Centre:

- Date: • Tuesday, November 28, 2023
- Time: • 6:00 – 8:00 pm (drop in anytime)
- Location: • City Hall, Room 304 (Level 3)
545 Talbot Street, St. Thomas
- Purpose: • Informal drop-in style PIC where you can view the construction plans and ask questions of City staff

Project Details:

- Location: • Kains Street - Mondamin Street to Alma Street
- Schedule: • Spring – Fall 2024
- Scope of Work: • Kain Street - sanitary sewer, watermain, utility relocations, drainage improvements, roadwork, traffic calming, and pedestrian safety improvements
- Scott Street and Curtis Street - conversion from 1-way only traffic to 2-way traffic, including traffic calming measures and pedestrian crossings
