## **Species Guide**

Coniferous Trees	Description
Norway Spruce	<ul> <li>dark green needles and distinctive drooping branches</li> <li>commonly used in windbreaks</li> <li>relatively fast growing</li> <li>introduced evergreen to Canada</li> <li>grows to 30 m (100 ft)</li> </ul>
White Cedar	<ul> <li>yellow to green flat scale-like foliage that turns bronzy green in winter</li> <li>popular windbreak and hedge species that can be easily pruned</li> <li>grows well on a variety of soil types and moisture conditions</li> <li>browsed by deer</li> <li>grows to 15 m (50 ft)</li> </ul>
White Pine	<ul> <li>clusters of 5 soft, long, bluish-green needles</li> <li>excellent in block plantings but not recommended for windbreaks</li> <li>sensitive to road salt and air pollution</li> <li>grows up to 35 m (115 ft)</li> </ul>
White Spruce	<ul> <li>short, bluish-green needles</li> <li>keeps a nice shape with a compact form</li> <li>commonly used in windbreaks</li> <li>slower growing than Norway Spruce</li> <li>grows to 25 m (80 ft)</li> </ul>

Deciduous Trees	Description	
Eastern Redbud	<ul> <li>known for its spectacular pink spring flowers</li> <li>leaves are broadly heart-shaped and branches are zigzagged</li> <li>grows up to 8 m (25 ft)</li> </ul>	
Red Maple	<ul> <li>leaves are green during summer, brilliant deep red to yellow in autumn</li> <li>medium growth rate, tolerates wet to dry sites</li> <li>root system may get into tile drains</li> <li>grows up to 25 m (80 ft)</li> </ul>	
Red Oak	<ul> <li>bristle tipped lobed leaves turn bright red in autumn</li> <li>nuts used by wildlife</li> <li>grows up to 28 m (90 ft)</li> </ul>	
Sugar Maple	<ul> <li>excellent shade tree with strong branches and spectacular orange-red fall colour</li> <li>sensitive to salt and air pollutants</li> <li>grows to 30 m (100 ft)</li> </ul>	
Tulip Tree	<ul> <li>showy tulip-shaped flowers in May/June</li> <li>fast growing and has a unique leaf shape</li> <li>grows up to 35 m (115 ft)</li> </ul>	
White Birch	<ul> <li>can grow as single trunks or as multi-stemmed clumps</li> <li>intolerant of shade</li> <li>creamy-white bark that peels easily into large sheets</li> <li>grows up to 25 m (80 ft)</li> </ul>	

Wildlife Shrubs	Description
Red Osier Dogwood	<ul> <li>low shrub with bluish-white autumn berries that are enjoyed by birds</li> <li>attractive red stems are striking against winter landscape</li> <li>grows on damp sites and roots help to stabilize eroding soils</li> <li>grows to 2-3 m (6-10 ft)</li> </ul>
