MAJOR DONATION MADE BY 1PASSWORD FOR ST. THOMAS OUTDOOR RECREATION COMPLEX PARK TO BE NAMED 1PASSWORD PARK

Today, City Council is extremely pleased to announce the receipt of a significant donation for the St. Thomas Outdoor Recreation Complex.

On behalf of 1Password, David and Sara Teare of St. Thomas have committed to a contribution of \$500,000.00 for the complex. 1Password creates password management software that is used by millions of customers around the world.

The outdoor complex will be named 1Password Park in recognition of the donation.

David and Sara Teare, along with their family, are residents of St. Thomas and are proud to support the community.

“When Joan Rymal approached us to discuss possible donation opportunities for the new soccer complex, we knew this was something we wanted to make happen. Our children have both enjoyed playing with the St. Thomas Soccer Club and we look forward to having a wonderful new park where everyone can enjoy the love of the game” states Sara Teare.

“The City is truly honoured that that Teare’s have made this tremendous gift on behalf of 1Password. We are pleased to brand the new outdoor sports complex as 1Password Park. We know that residents and visitors alike will be impressed with the quality sports fields and the facilities that will serve the community for generations to come” states Mayor Heather Jackson.

1Password Park will be completed in the spring of 2019. The donated funds will ensure some significant facility amenities are available when the park opens.
