Holy Angels Church – 502 Talbot Street – Request for Alterations Pages 2-6

A letter has been received from Joe Liebrechts, Parish Property Committee Chair requesting permission to alter a heritage building by installing steel handrails at the East and West entrances to the church. The letter will be referred to the Municipal Heritage Committee at Council's meeting on September 14, 2015.

# ST. THOMAS HERITAGE COMMITTEE

September 8, 2015

**Regarding:**

**Holy Angels Church,  
502 Talbot St; St. Thomas, Ont.  
By-Law # 31-2002**

City of St. Thomas  
Received

SEP 09 2015

City Clerks Dept.

**Proposed exterior handrails**

The Parish of Holy Angels Church is requesting Approval in Principal from the Heritage Committee for the installation of new stainless steel handrails for both the East and West stairwells of the building as per the attached sketches.

The current exterior steps do not require handrails under the current Ontario Building Code. The proposed exterior railings are in response to parishioners' requests to improve safety for all persons using the facility stairwells.

The Parish feels that the proposed design would not detract from the overall appearance of our Heritage Building's façade and would be designed and installed as per requirements of the current Ontario Building Code.

Sincerely,

**Joe Liebregts**

Holy Angels Parish Property Committee Chair.
