Front Façade ✓
 Side Façade ✓
 Rear Façade _____

Façade improvement program application 2015

Proposed address 2-4queen St – 248 talbot to 244 ½ talbot

Starting with 244 talbot we plan to raise the lower portion of the wall to be level with the wall of 248 talbot, see A in diagram. We are going to leave the upper wall to let in as much light as possible. 4 new commercial double painted windows with black frames will be installed at 244 talbot, as well the new windows at 248 will have there frames painted to match as they were installed earlier this year. We are also installing 3 new steel doors to the commercial units and painting them black, the two other existing metal doors will be painted black to match. See appendix C. All new unit numbers will be installed above doors were allowed and or above windows if needed. See appendix D. All new mailboxes will be installed beside doors at a unified height. See appendix E. All new good one side half inch plywood will be installed over the whole front façade and east facing corner of the building including the small over hang were the new eaves trough will be hung. The small over hang will be capped with black aluminum. All new lights will be installed above windows and or doors to improve safety and enhance the visual appearance of the building see appendix B. To create a look that would have been popular when the building was built we are going to instal millwork on all the columns, above and below the windows in a picture frame design with mitred corners. The exact size will be determined when building begins, but will look very close to the picture provided. As mentioned above all new black eaves trough will be installed including the wrap around onto queen St. Once all woodwork has been installed we will be priming and painting the wood with dulux diamond series exterior paint, Connecticut blue. This will help keep the wood looking good for years to come. On the 2 queen side of the building we are planning to repair any loose brick and re-point were needed. Then we are going to remove any loose paint by pressure washing it off or using a steel brush were needed. The wall will then be primed and painted using dulux diamond series exterior paint shadow box. Appendix G. I believe this colour will work well with the Connecticut blue we are using in the front. Thank you for your time and consideration.

SINCE 1885
FURNITURE & DESIGN

September 8, 2014

FACADE IMPROVEMENTS DESCRIPTION

Attached are photos of:

- the original 1885 Jennings building
- its current state,
- and the projected proposal.

PHASE 1:

The current state of the building is not only an eye-sore to the community and impossible for clients to locate, but is also quickly becoming a safety concern. I've been informed that some of the large marble slabs are loose and could give way at any time. Thus the need to move forward quickly with this project - and before bad weather hits with the removal of front windows involved.

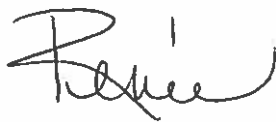

The photo of the original building was prior to when it was divided into two separate businesses during the depression. The interior was eventually re-opened into one space but the exterior was never returned to its original double-window frontage. The plan is to return it as close to the original look as possible as budget will allow.

The exterior front bottom half is the main area of renovation in Phase 1.

- All existing marble and signage will be removed, repairing or replacing brick wherever is needed beneath it
- The existing west side large double window and current center doorway will remain as is.
- The east side will be returned to its original framework and position, replacing the existing area with a large double window to match the west side.
- The 36-40" strip directly above the windows and doorway, stretching across the middle of the front of the building will be painted steel. Original material used is unknown. The area above the doorway will house the back-lit signage.

PHASE 2 - to come:

- The upper half of the front exterior
- The rear facade

**THE CORPORATION OF THE CITY OF ST. THOMAS
URBAN DESIGN COMMITTEE**

**ROOM 309
CITY HALL**

OCTOBER 3, 2014

The meeting convened at 9:00 a.m.

ATTENDANCE

Members

Alderman Cliff Barwick
Alderman Mark Cosens
Serge Lavoie, Heritage Committee
Russell Schnurr, Heritage Committee

Officials

Wendell Graves, CAO/Clerk
Matt Smale, Corporate Administrative Clerk

Disclosure of Interest

None

Minutes

Moved by: S. Lavoie – Ald. Cosens:

THAT: The minutes of the meeting held on September 5, 2014 be accepted.

Carried.

Applications

432 Talbot Street – Jennings Furniture – Façade Project

The CAO/Clerk stated that an application had been received for a façade project at Jennings Furniture. He provided the members with artist renderings of the proposed work.

The project was eligible for a loan of \$13,000 and a subsequent grant of \$7,500.

The CAO/Clerk advised that the applicant was considering a multi-phase complete restoration of the façade, this application was for the first phase which would include the lower half of the façade. The applicant was made aware that only one CIP application could be made per property.

The members discussed the fact that the work proposed by the applicant did not necessarily reflect what was depicted in the photograph. They requested clarification on materials and designs for windows, doors and signage.

The members discussed the fact that completing the façade work in phases could result in an uniform look to the building. They further noted that there was no guarantee future phases would occur.

The members were encouraged by the application and artistic rendering. They requested that the CAO/Clerk work with the applicant to obtain clarification on a number of issues before formally considering the application.

364 Talbot Street – Dale and Christie Brown – Residential Rehabilitation

The CAO/Clerk advised that the applicant proposed to replace flooring, 2 windows, insulation and update bathrooms in an upper apartment unit at 364 Talbot Street. The applicant had been advised that appliances were ineligible for funding.

Ald. Cosens stated that an industrial skylight existed at the building. The skylight was an important feature and he would like to see it maintained.

The members agreed that acceptance of the application should be contingent upon arch windows being fully replaced with glazed units.

Moved by: Ald. Cosens – S. Lavoie:

THAT: The application for 364 Talbot Street be accepted contingent upon arch windows being fully replaced with glazed units.

Carried.

New Business

Meeting with Dillon Consulting

The members were reminded that they would be meeting with Dillon Consulting regarding the review of planning studies as they relate to the CIP and Urban Design Committee. The meeting was scheduled for October 7, 2014 at 3:00 p.m. in the Planning Office.

Adjournment

Moved by R. Schnurr – S. Lavoie:

THAT: We do now adjourn at 9:30 am.

Carried.
